

# MELBOURNE MARKET AUTHORITY

5 March 2007

## MARKET CIRCULAR NO. 477

**TO: DB-8 North East - East B Store Tenants**

**RE: Power Shutdown on  
Wednesday 7 March, 2007**

There will be a power shutdown at **11:00 a.m. on Wednesday 7<sup>th</sup> March 2007** for **2 (two) hours** affecting:

- **all DB 8 - North East – East B-Store Quadrant tenants**

The purpose of the power shutdown is to carry out new power connection preparatory works for the Eastern Undercover Parking Lighting upgrade works.

Computers and all associated electrical equipment, i.e. fax's, PABX etc will need to be shutdown before this time. It is recommended that all data is backed up prior to this shut down.

Cool-rooms may need to be turned off before the shutdown and re-started after the shutdown. Due to current warmer temperatures, it is recommended all effected cool room doors are closed and motors started to reach their set point temperatures at least 2 hours prior to this shut down. Tenants are advised to contact their refrigeration mechanics to check the operation of their cool-rooms following this re-start.

If you have any queries, please contact the Site Services Department on 9258 6160.

Thank you for your co-operation during this period.
